

Welcoming Caleb Tozzi

Description

Please join me in welcoming Caleb Tozzi to Access Services as the new Collections Project Assistant.

Caleb graduated from UC Berkeley, was a student library employee, and served as the Evening/Weekend circulation work-leader for the Bioscience Library. They have plenty of collection project experience, including working with NRLF and Google shipments, as well as integrating collections from other campus libraries.

While serving in the role of evening/weekend circulation work-leader, they trained and supervised SLEs. Caleb's experience will be most helpful to Ryan Barnette and the SLEs in the Stacks Maintenance unit.

Caleb will start Monday, March 18 and will be located in 198 Gardner Stacks staff office.
